SWAPACRYPTO

SWAPACRYPTO Whitepaper

"THE SWAPACRYPTO ECOSYSTEM"

"Swapacrypto was created to offer a transparent and decentralized cryptocurrency experience, with a focus on multi-chain transactions. Our ecosystem is comprised of several tokens, each optimized for its respective blockchain, ensuring flexibility and lower fees for our platform users."

SWAPACRYPTO was created to offer a transparent, decentralized, and fair cryptocurrency experience on the Binance Smart Chain and Ethereum networks. With zero buy/sell fees and a waived contract, the token aims to encourage organic growth and community participation. Its large initial burn demonstrates a commitment to limiting circulating supply, generating scarcity and long-term value for holders.

Token Overview

Token Name: SWAPA BEP20

Symbol: SWAPA

Network: Binance Smart Chain (BEP20)

Explorer: <https://bscscan.com/token/0xe38657ff1e88cab61a824e943951893fc88b8444>.

Contract Address: 0xe38657ff1e88cab61a824e943951893fc88b8444

3T Burn Hash: 0x0d95c8c688a2417c0500e588b0a997d26e4769b841e4b855263a23a35d8ad3b6

Renunciation of Possession Hash: 0x3b5102c19dddc658753f90bd129d64689dedf84241db8b587a419be59862bae5

Decimals: 18

Description: "Token oficial do projeto SWAPA.",

Total Maximum Supply: 5,000,000,000,000

Tokens Burned: 3,000,000,000,000

Effective Circulating Supply: 2,000,000,000,000

Buy/Sell Fees: 0%

Ownership: Renounced

Liquidity: Currently not locked

Liquidity amount: "Reach \$10,000 in locked liquidity in Q1."

Token: SWAPA USDT (BEP-20)

Purpose: A USDT-pegged stablecoin on the BNB Smart Chain, used to provide liquidity and conduct low-fee swaps on the Swapacrypto platform.

Token Overview

Token Name: SWAPA ERC20

Symbol: SWAPA

Network: ETHEREUM (ERC20)

Total Maximum Supply: 5,000,000,000,000

Tokens Burned: 2,970,000,000,000

Effective Circulating Supply: 2,030,000,000,000

Buy/Sell Fees: 0%

Ownership: Renounced

Liquidity: Currently not locked

Liquidity amount: "Reach \$20,000 in locked liquidity in Q1."

Token: USDTbep20 (BEP20)

Purpose: This token represents the Tether (USDT) standard on the BNB Smart Chain (BEP-20). Its role in the SwapACrypto ecosystem is to serve as a pillar of stability and accessibility, allowing users to transact with low and predictable fees. It is the primary vehicle for creating liquidity pairs and trading other assets on our platform on the BSC network, serving as a secure bridge for new users.

Token Overview

Token Name: USDTSW BEP20

Symbol: USDTsw

Network: Binance Smart Chain (BEP20)

Total Maximum Supply: 5,000,000,000,000

Tokens Burned: 3,000,000,000,000

Effective Circulating Supply: 2,000,000,000,000

Buy/Sell Fees: 0%

Ownership: Renounced

Liquidity: Currently not locked

Liquidity amount: "Reach \$15,000 in locked liquidity in Q1."

Token: USDTsw (BEP20)

Purpose: USDTSW BEP20 is our native stable token, optimized for the BNB Smart Chain (BEP-20). It is designed to be the core of operations on the SwapACrypto platform, offering the deepest integration with our swap tools and liquidity pools. Using USDTSW may, in the future, grant users exclusive benefits, such as reduced transaction fees and access to special staking pools, strengthening the internal economics of our ecosystem.

To expand Swapacrypto's multichain presence and reduce transaction costs, we implemented the SWAPAsol token on the Solana network, following the SPL standard.

Token Governance (Authorities)

Mint authority: waived — prevents new issuances (protection against arbitrary inflation).

Freeze authority: disabled — prevents freezing of accounts via mint.

These measures reinforce the immutability of the supply and predictability for the community.

ROADMAP

Token deployment completed Burn of 3.0T tokens executed

Liquidity pool created on PancakeSwap and Uniswap Application for CoinGecko listing submitted Community building on social networks

Next steps:

Grow liquidity

Whitepaper

Expand to centralized exchanges

Build strategic partnerships

Continue community expansion

Q4 2025: Reach \$10,000 in liquidity on PancakeSwap and Uniswap. Launch initial marketing campaign on Twitter and TikTok.

Q1 2026: Begin development of the SwapACrypto platform. Apply for listing on CoinGecko and CoinMarketCap.

Q2 2026: Close the first strategic partnership with another BNB Chain project.

Community & Social Impact

The SWAPACRYPTO project is fundamentally about creating value that transcends the digital world. We believe that blockchain technology and decentralization are powerful tools for generating real positive impact. Our project is 100% community-driven, with transparency guaranteed by waived contracts and no fees for developers.

Our Social and Environmental Commitment

Beyond our technological mission, a central pillar of SWAPACRYPTO is our commitment to social action and nature conservation. We believe that the success of our project should be shared with the global community.

To this end, we are establishing partnerships with non-governmental organizations (NGOs) dedicated to social causes and environmental protection. A percentage of future fees generated by the SwapACrypto platform will be allocated to a transparent charity wallet, where the community itself can help choose and vote on the institutions that will receive donations.

Governance and Active Participation

We invite all members of our community to be more than just token holders; We invite you to be co-creators of SWAPACRYPTO's future. We encourage active participation in project governance, marketing strategies, and liquidity growth so that, together, we can strengthen both our ecosystem and our positive impact on the world.
